

# Protection and Switchgear

Third Edition

**Dr. S. Raghuraman**

Assistant Professor

Dept. of Electrical and Electronics Engineering

Velammal Engineering College

Chennai - 600 066.

Publishing for future

**SCITECH PUBLICATIONS (INDIA) PVT. LTD.**

# Contents

<i>Important Diagrams</i>	(i)
<i>Symbols and Notations</i>	(xxxv)

<b>Chapter 1</b>	<b>Introduction</b>	<b>1.1 - 1.44</b>
1.1	Switchgear . . . . .	1.1
1.2	Principles and Need for Protective Schemes . . . . .	1.2
1.3	Functions of Protective Relaying . . . . .	1.4
1.4	Nature and Causes of Faults . . . . .	1.4
1.5	Fault Minimization . . . . .	1.5
1.6	Types of Faults . . . . .	1.5
1.6.1	Symmetrical faults . . . . .	1.6
1.6.2	Unsymmetrical faults . . . . .	1.6
1.6.3	Effects of faults . . . . .	1.7
1.6.4	Fault statistics . . . . .	1.8
1.6.5	Power system earthing . . . . .	1.9
1.7	Fault Current Calculation using Symmetrical Components . . . . .	1.15
1.8	Zones of Protection . . . . .	1.25
1.9	Essential Qualities of Protection . . . . .	1.27
1.10	Protection Scheme . . . . .	1.29
1.11	Protection Against Over Voltage Due to Lightning and Switching . . . . .	1.30
1.11.1	Introduction . . . . .	1.30
1.11.2	Causes of overvoltages . . . . .	1.30
1.11.3	Internal causes of overvoltages . . . . .	1.31
1.11.4	External causes of over voltages-lightning . . . . .	1.33
1.12	Surge Diverter or Lightning Arresters . . . . .	1.34
1.12.1	Limitations . . . . .	1.34
1.12.2	Surge absorber . . . . .	1.35
1.13	Ground Wires . . . . .	1.36
1.14	Basic Ideas of Insulation coordination . . . . .	1.39
	<i>Short Questions and Answers</i> . . . . .	1.40
	<i>Review Questions</i> . . . . .	1.43
<b>Chapter 2</b>	<b>Operating Principles and Relay Constructions</b>	<b>2.1 - 2.62</b>
2.1	Functions of Protective Relaying . . . . .	2.1
2.2	Terminologies used in Protective Relaying . . . . .	2.1
2.3	Basic Operation of Relay . . . . .	2.4
2.4	Types of Relay . . . . .	2.5
2.5	Electromagnetic Attraction Relays . . . . .	2.6

2.5.1	Plunger type attraction relay . . . . .	2.6
2.5.2	Hinged armature type relay . . . . .	2.9
2.5.3	Balanced beam type . . . . .	2.9
2.5.4	Polarized moving iron type . . . . .	2.9
2.5.5	Advantages of electromagnetic attraction relays . . . . .	2.10
2.5.6	Disadvantages . . . . .	2.10
2.5.7	Applications . . . . .	2.10
2.6	Electromagnetic Induction Type Relays . . . . .	2.10
2.7	Theory of Induction Relay Torque . . . . .	2.12
2.8	Induction Type Overcurrent Relay (non-directional) . . . . .	2.13
2.9	Induction Type Directional Power Relay . . . . .	2.14
2.10	Induction Type Directional Overcurrent Relay . . . . .	2.16
2.11	Distance Relays . . . . .	2.18
2.11.1	Impedance relays . . . . .	2.18
2.11.2	Reactance relays . . . . .	2.24
2.11.3	MHO relay . . . . .	2.25
2.12	Differential Relays . . . . .	2.27
2.13	Current Differential Relay . . . . .	2.28
2.14	Voltage Balance Differential Relay . . . . .	2.30
2.15	Translay System . . . . .	2.31
2.16	Directional Relays . . . . .	2.33
2.16.1	Single-phase directional relays . . . . .	2.33
2.17	Negative Sequence Relays . . . . .	2.35
2.18	Under Frequency Relays . . . . .	2.36
2.19	Overcurrent Relays . . . . .	2.36
2.20	Static Relays . . . . .	2.38
2.20.1	Transducer relays . . . . .	2.40
2.20.2	Rectifier bridge relays . . . . .	2.41
2.20.3	Transistor relays . . . . .	2.41
2.20.4	Hall effect relays . . . . .	2.42
2.20.5	Gauss effect relays . . . . .	2.42
2.21	Over-Current Relays . . . . .	2.42
2.21.1	Static time over-current relay . . . . .	2.42
2.21.2	Directional static over-current relay . . . . .	2.43
2.21.3	Static differential relay . . . . .	2.44
2.21.4	Static distance relay . . . . .	2.44
2.22	Microprocessor Based Relays . . . . .	2.45
2.23	Universal Relay - Torque Equation . . . . .	2.53
	<b>Short Questions and Answers</b> . . . . .	2.53
	<b>Review Questions</b> . . . . .	2.61

<b>Chapter 3</b>	<b>Apparatus Protection</b>	<b>3.1 - 3.66</b>
3.1	Introduction . . . . .	3.1
3.2	Transformer Protection . . . . .	3.1
3.2.1	Nature of transformer faults . . . . .	3.1
3.2.2	Faults in auxiliary equipment . . . . .	3.1
3.2.3	Winding faults . . . . .	3.3
3.2.4	Overloads and external short circuits . . . . .	3.3
3.2.5	Differential protection of transformer . . . . .	3.3
3.2.6	Problems encountered in differential protection of transformer . . . . .	3.4
3.2.7	Percentage or biased differential relay . . . . .	3.5
3.2.8	Methods for preventing operation on inrush currents . . . . .	3.6
3.2.9	Influence of winding connections and earthing on earth fault current . . . . .	3.8
3.2.10	Tank leakage protection . . . . .	3.11
3.2.11	Restricted earth-fault protection . . . . .	3.11
3.2.12	Gas actuated relays . . . . .	3.12
3.3	Generator Protection . . . . .	3.16
3.3.1	Generator faults . . . . .	3.16
3.3.2	Generator differential protection . . . . .	3.19
3.4	Motor Protection . . . . .	3.34
3.4.1	Types of faults . . . . .	3.34
3.5	Bus Zone Protection . . . . .	3.39
3.5.1	Bus zone faults . . . . .	3.40
3.6	Protection of Transmission Lines . . . . .	3.50
3.6.1	Main requirements . . . . .	3.50
3.6.2	Distance protection of lines . . . . .	3.51
3.6.3	Pilot wire protection . . . . .	3.51
3.6.4	Operation . . . . .	3.52
3.6.5	Three-stepped distance protection of transmission line . . . . .	3.52
3.7	C.T's and P.T's and their applications in the Protective Schemes . . . . .	3.55
3.7.1	Introduction . . . . .	3.55
3.7.2	Need for the instrument transformers . . . . .	3.55
3.7.3	Requirements of C.T's and P.T's used for protection . . . . .	3.56
3.7.4	Ratios of instrument transformers . . . . .	3.56
3.7.5	Errors in current transformers . . . . .	3.57
	<b>Short Questions and Answers</b> . . . . .	<b>3.60</b>
	<b>Review Questions</b> . . . . .	<b>3.65</b>

<b>Chapter 4</b>	<b>Static Relays and Numerical Protection</b>	<b>4.1 - 4.32</b>
4.1	Static Relays - Introduction . . . . .	4.1
4.1.1	Phase comparator . . . . .	4.2
4.1.2	Amplitude comparator . . . . .	4.5
4.2	Synthesis of Various Relays using Static Comparators . . . . .	4.7
4.2.1	Synthesis of various distance relays . . . . .	4.7
4.2.2	Syntheses of reactance relay using phase comparator (cosine-type) . . . . .	4.11
4.2.3	Synthesis of impedance relay using amplitude comparator . . . . .	4.14
4.2.4	Synthesis of quadrilateral distance relay . . . . .	4.15
4.3	Numerical Protection . . . . .	4.16
4.3.1	Block diagram of numerical relays . . . . .	4.16
4.3.2	Numerical over-current protection . . . . .	4.17
4.3.3	Numerical transformer differential protection . . . . .	4.19
4.3.4	Numerical distance protection of transmission line . . . . .	4.21
	<i>Short Questions and Answers</i> . . . . .	4.28
<b>Chapter 5</b>	<b>Circuit Breakers</b>	<b>5.1 - 5.66</b>
5.1	Introduction to Circuit Interruption . . . . .	5.1
5.2	Physics of Arc Phenomena . . . . .	5.1
5.3	Maintenance of the Arc . . . . .	5.4
5.4	Essential Properties of Arc . . . . .	5.5
5.5	Arc Interruption Theories . . . . .	5.8
5.6	Restriking Voltage and Recovery Voltage . . . . .	5.10
5.7	Expression for Restriking Voltage and RRRV . . . . .	5.11
5.8	Resistance Switching . . . . .	5.15
5.9	Current Chopping . . . . .	5.19
5.10	Interruption of Capacitive Current . . . . .	5.21
5.11	D.C Circuit Breaking . . . . .	5.22
5.12	Introduction to Circuit Breakers . . . . .	5.26
5.13	Circuit Breakers . . . . .	5.26
5.14	Classification of Circuit Breakers . . . . .	5.27
5.15	Oil Circuit Breakers . . . . .	5.27
5.16	Types of Oil Circuit Breakers . . . . .	5.28
5.17	Plain Break Oil Circuit Breakers . . . . .	5.29
5.18	Arc Control Oil Circuit Breakers . . . . .	5.30
5.19	Low Oil Circuit Breakers (or) Oil Minimum Circuit Breakers (or) Minimum Oil Circuit Breakers (OMCB) . . . . .	5.34
5.20	Air-Blast Circuit Breakers . . . . .	5.37
5.21	Air Break Circuit Breaker . . . . .	5.40
5.22	Sulphur Hexafluoride (SF <sub>6</sub> ) Circuit Breakers . . . . .	5.42

5.23	Vacuum Circuit Breakers (VCB) . . . . .	5.44
5.24	Comparative Merits of Different Types of Conventional Circuit Breakers . . . . .	5.45
5.25	Rating of Circuit Breakers . . . . .	5.48
5.25.1	Breaking capacity (or) Rupturing capacity . . . . .	5.49
5.25.2	Making capacity . . . . .	5.50
5.25.3	Short-time current rating . . . . .	5.50
5.25.4	Rated voltage, current and frequency . . . . .	5.51
5.25.5	Rated operating duty . . . . .	5.51
5.26	Testing of Circuit Breakers . . . . .	5.51
5.26.1	Types tests . . . . .	5.52
5.26.2	Routine tests . . . . .	5.52
5.26.3	Short-circuit testing stations . . . . .	5.53
5.26.4	Testing procedure . . . . .	5.55
5.26.5	Direct testing . . . . .	5.56
5.26.6	Indirect testing . . . . .	5.57
	<i>Short Questions and Answers</i> . . . . .	5.59
	<i>Review Questions</i> . . . . .	5.63
